

Compass ~ The Dashboard

The screenshot shows the Odyssey 2011 Teacher Dashboard. At the top, there is a navigation bar with the following tabs: Dashboard, My Students, Assignment, Assessment, Reports, Content, Message Center, and Community. The user's name, Sara Schoepke, and options for Help and Log Out are visible in the top right corner. On the left side, there is a Search section with a search box for students and a Student Status section showing an average score for all activities assigned by the user in the last 30 days, currently marked as N/A. The main area on the right is titled 'At a Glance' and features a large green pie chart. Above the pie chart are two tabs: Assignments and Assessments. The pie chart is currently set to show the average score for assignments.

The Dashboard view of Compass Learning for Teachers gives you access to information that you need.

My Students ~ Create and modify classes. Create students and update teacher information. Assign students to classes. View and maintain student and class information and subject level access.

Assignments ~ Create assignments; assign them to your classes and students; and review class and student progress. View, edit, and assign assignments from your school or district.

Assessments ~ Item Bank, browse test items for use in creating custom objective based tests

Reports ~ Choose from the default reports we are accustomed to or create customized reports using the available templates.

Content ~ Search and view an index of all Compass Learning curricula. On the Resource page, read and download Compass Learning Odyssey user's guides along with State Correlation Reports.

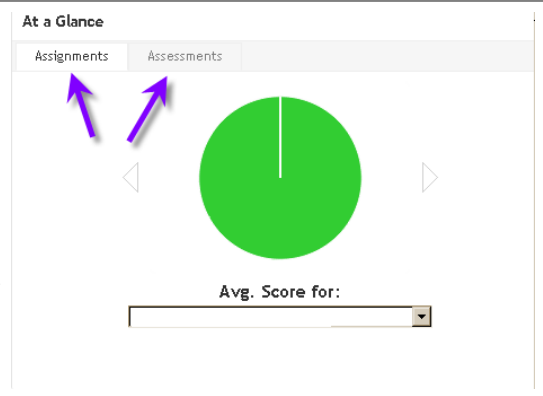

Message Center ~ Contains an internal messaging center that allows teachers to send simple text messages to students within the Odyssey system.

Community ~ an online forum within Odyssey manager designed to facilitate focused discussion between teachers and students.

At a Glance Chart

The At a Glance Chart appears on the right hand side of the Dashboard screen when logged in as a teacher. The chart shows average score information on recent assignments as well as on recent assessments (depending on which tab is selected at the top of the screen).

If the Assignment tab is selected, the user will have the ability to select from the last 10 assignments which will be listed in the pull-down menu. Once an assignment is selected, the pie chart will show the average scores for that assignment. Note: if you click a piece of the pie chart, it will produce a popup window with additional information.

This close-up view of the 'At a Glance' chart shows the 'Assignments' and 'Assessments' tabs. Two purple arrows point to these tabs. Below the tabs is a large green pie chart. Underneath the pie chart is a dropdown menu labeled 'Avg. Score for:' with a list of assignment names. The pie chart is currently set to show the average score for the selected assignment.
